

Logistics & Operational Requirements

A practical opening-readiness plan for the proposed Oakwood boutique branch

SCALE AT A GLANCE

180

accommodation units

60 hotel rooms + 120 serviced apartments

OCCUPANCY RAMP-UP

55–60% → 70–75%

Opening occupancy to stabilised occupancy

SERVICE SCALE

1 restaurant/bar · 2 meeting rooms · 24-hr reception

Readiness priorities

1. Inventory: linen, towels, toiletries, cleaning supplies, F&B stock and apartment starter packs.
2. Equipment: housekeeping trolleys, vacuums, POS terminals, AV, CCTV, access control, fitness equipment and maintenance tools.
3. Back-of-house: clean/soiled linen stores, food storage, chemical store, waste area, luggage store and meeting-room storage.
4. Suppliers: outsource linen laundry and confirm reliable suppliers for food, cleaning, maintenance and security.
5. Testing: test payments, Wi-Fi, key-card access, CCTV, reception systems and emergency procedures before launch.

Goal: smooth opening + consistent service from day one

Must confirm before opening

- Dedicated loading dock, service entrance and goods lift
- Commercial laundry contract plus backup provider
- Overnight security model: in-house or outsourced
- Supplier delivery frequency and critical buffer stock
- Storage capacity for 180 units
- Safe unstaffed fitness-room access, CCTV and emergency call process

Decision required

Approve phased opening and overnight security approach.
